

HRMAGIX020 - Time and Work Tracking Software Policy

✓ Version: 2.0, 28th April 2025
📅 Effective Date: 15th June 2025
🔍 Reviewed by: Rahul R Jadhav

1. Objective

To enhance productivity, promote accountability, and ensure efficient project execution, HR Magix encourages the use of company-approved time and work tracking software. Implementation may or may not be mandated depending on individual work performance, the nature of the role, and at the discretion of the reporting manager, HR department, and management.

2. Scope

This policy applies to all full-time, part-time, remote, and onsite employees using either company-issued or personal devices to carry out official work. The applicability of the software may vary based on management or departmental requirements.

3. Software Installation Requirement

Installation of the designated time and work tracking software may be required for certain employees or departments, as determined by:

- Reporting managers
- HR Department

- Senior Management

If required, installation must be completed on:

- Company-issued devices
- Personal computers/laptops used for remote work

Configuration must follow IT department guidelines.

4. Scope of Monitoring

The software (where applicable) will monitor:

- Active and inactive work hours
- Engagement with assigned tasks/projects
- Time spent on work-related applications

The software will not:

- Access personal files or folders
- Monitor unrelated or private browsing/applications

Monitoring is strictly for professional activities.

5. Data Privacy and Security

HR Magix assures that:

- All collected data is secure and confidential
 - No personal/non-work-related data will be collected or shared
 - The software complies with industry-standard data protection protocols
-

6. Employee Responsibility

Where software usage is applicable:

- Employees must ensure it remains active during work hours
 - Any attempt to disable, tamper with, or uninstall the software without prior IT/HR approval may be considered a policy violation and could result in disciplinary action
-

7. IT Support and Training

The IT department will provide:

- Installation assistance and troubleshooting
 - Regular software updates
 - Training and documentation for effective usage
-

8. Policy Compliance

Non-compliance, where the policy is applicable, may result in:

- Warning or counseling
 - Escalation to HR or management
 - Suspension of access to work systems and/or disciplinary measures
-

9. Review and Updates

This policy will be periodically reviewed and revised in line with organizational needs and technological developments.

10. Contact for Clarifications

Employees should contact the HR or IT department for:

- Clarifications on policy applicability
 - Technical help or feedback regarding the software
-
