

HRMAGIX013 - Workplace Violence Policy

1. Objective

HR Magix is committed to providing all employees with a safe and secure work environment. All employees are expected to read, understand, and comply with this policy to minimise the risk of violence in the workplace.

2. Scope

This policy applies to all employees, public visitors, clients, and anyone else who comes in contact with employees during work. Workplace violence refers to any act or threat of physical violence, harassment, intimidation, or other threatening, disruptive behaviour that occurs at the work site. It includes verbal threats, written threats, physical assaults, or any expression intended to cause harm.

3. Forbidden Conduct

HR Magix maintains a zero-tolerance stance against any form of workplace violence, whether perpetrated by or against employees. Employees are strictly prohibited from making threats or engaging in aggressive behaviour of any kind.

Workplace Violence Policy

Examples of forbidden conduct include physical assaults, fights, or any act causing bodily injury; verbal threats, intimidation, shouting, or abusive language; threatening behaviour such as stalking, bullying, or menacing gestures; vandalism or damage to company or employee property; possession of firearms, knives, or other weapons on office premises; and violence stemming from personal or domestic disputes spilling into the workplace.

4. How to Report?

All employees must report potential or actual threats immediately to their supervisor or the HR department. Anonymous reporting is allowed, and confidentiality will be maintained wherever necessary. Every report will be investigated thoroughly. Reports or occurrences that require confidentiality will be handled properly, and information will only be shared with those who need to know. The outcomes of investigations will be discussed with all parties engaged in a case. Any hint of a potentially hostile or violent situation will prompt HR Magix to act. All reported incidents will be investigated promptly and impartially by HR and management. Depending on the severity, security or legal teams may be involved. Outcomes will be communicated to relevant parties.

5. Measures to Reduce Risk

The HR department conducts appropriate background investigations on candidates to assess their backgrounds and decrease the risk of hiring someone with a history of violent behaviour. HR Magix conducts annual inspections of the facilities to analyse and identify any risks of workplace violence or dangers. To minimise all hazards, all appropriate corrective actions will be performed.

Workplace Violence Policy

6. Emergency / Dangerous Situation

Employees who come face to face with an armed or dangerous person should not challenge or disarm the person. Employees should maintain a calm demeanour, maintain constant eye contact, and communicate with the individual. If notifying a supervisor of the need for assistance is possible without jeopardising the employee's or others' safety, it should be done. Employees should collaborate and follow directions if possible.

7. Disciplinary Consequences

Violence is not tolerated in our workplace. Any such activity will result in appropriate disciplinary action, which could include dismissal, removal from boards or committees, and even criminal prosecution.
